LETTER TO THE UNIVERSITY COMMUNITY

University Colleagues,

On behalf of Enrollment Management and Marketing, I am pleased to present this report of DePaul's fall 2012 enrollment profile. This annual enrollment summary describes how that profile has changed over the years and reflects the continuing success of DePaul's strategic pursuit of ambitious enrollment goals.

As we embark on the Vision 2018 strategic plan, we face the headwinds of our nation's still fragile economic recovery. While DePaul retains a strong position in the competitive landscape, we are not immune to challenges. Although we achieved a record level of tuition revenue, our overall enrollment decreased for the first time since 2008—less than 2 percent from 2011's record high.

Despite the increasing challenges, there is reason for optimism. Our undergraduate enrollment is an all-time record high, with the largest new freshman and second-largest transfer classes in the history of the institution. Our student body is more diverse, with a stronger academic profile than ever before. Our four-year graduation rates have never been better. These outcomes demonstrate that the breadth and quality of our educational programs resonate strongly in the marketplace.

As we continue tackling the complexities of building and shaping the enrollment profile, we recognize that our success depends upon the efforts of all who teach and work at DePaul. It is what you do on a daily basis that instills confidence in our students of the value of their DePaul education. Thank you for that.

Sincerely,

David H. Kalsbeek, Ph.D.
Senior Vice President, Enrollment Management and Marketing
