# LETTER TO THE UNIVERSITY COMMUNITY

## University Colleagues,

On behalf of the Division of Enrollment Management and Marketing, I am pleased to present DePaul's 2014 enrollment summary. This annual report describes the current enrollment profile and how it has changed over the years as we have pursued the university's ambitious enrollment goals.

The dynamics of the past several years have increased the uncertainty in enrollment planning. Lingering economic instability, combined with unprecedented competition, has made enrollment less predictable. Graduate programs have been particularly volatile. The university has responded by budgeting conservatively in anticipation of modest enrollment declines. Against this backdrop, I am proud to report on DePaul's successful enrollment outcomes for 2014.

With an overall enrollment of 23,799 students this fall quarter, DePaul surpassed its target by 1.2 percent. New student enrollment was the cornerstone of this year's success. Freshman enrollment is 7 percent over target and 5 percent more than last year. The class' academic profile is among the best ever, highlighted by record enrollment in the Honors Program, and the diversity profile remains strong at near-record levels. On the graduate side, new student enrollment surpassed projections by 10 percent and last year's total by 5 percent. Innovations such as the Corporate and Employer Outreach, or CEO, initiative and new scholarship programs were crucial to this effort.

We still face challenges moving forward. Projections for the foreseeable future reflect stable enrollment and tuition revenue. Our outcomes from this fall, however, generate optimism about our ability to succeed in these challenging and competitive times.

The foundation of the university's accomplishments is the incredible dedication and effort of all who teach and work at DePaul. You continually deliver the high-quality education and world-class service that make DePaul such a special place. Thank you for all that you do to ensure our future success.

Sincerely,

David H. Kalsbeek, PhD  
Senior Vice President, Enrollment Management and Marketing
